

## Financial help

Become a financial contributor.

If you would like to contribute to our progress, please consider donating to us on GitHub or PayPal. This will help us improve DateTime (DTT) and take on more challenging projects.

### Sponsor on GitHub

Support DateTime (DTT) projects by donating directly. You get a badge on your GitHub profile to show your support.

### Use GitHub Sponsors

#### PayPal

Use a debit card, credit card, or PayPal account to pay. You can choose a one-time payment or set up recurring payments every month. Every little bit helps!

#### Use PayPal

### Support and promotion

Help other users and promote DateTime (DTT).

#### Educate

If you're an expert in DateTime (DTT), you can help new users by answering questions and helping them get started. You can also help by writing tutorials and guides for new users.

#### Promote

One way to help us is by telling people about DateTime (DTT). A bigger community makes for a better framework, and a better framework makes the world a better place. If you know people who might use DateTime (DTT), please let them know!

### Project contributions

Help with documentation, design, and translations.

## Documentation

DateTime (DTT) is a work in progress and we're always looking for help writing documentation. We use Markdown for our documentation and host it on GitHub. You can submit pull requests to make changes or suggest new content.

## Translations

We're always looking for help translating DateTime (DTT) into different languages. If you'd like to help out, please get in touch .

## Code contributions

Help us improving our code, reporting bugs, and suggesting new features.

## Develop

All of our products are 100% Open Source and created through collaboration from people around the world. You can find the source code for all of our projects on GitHub .

## Report bugs

If you encounter a bug while using DateTime (DTT), please let us know so we can fix it. Here's how you can submit a bug report:

Click [here](#) to submit a new issue. Use a descriptive title that clearly summarizes the bug. Provide a detailed description of the issue, including steps to reproduce it. Be patient while we review and respond to your bug report.
